Skills

- **Languages**: C++, JavaScript, C, PHP, Python
- **Frameworks**: HTML and CSS, Bootstrap, NodeJS, React, Tailwind,
- **Tools/Platforms**: MySQL, MongoDB, Firebase,
- **Soft Skills**: Problem-Solving, Team Player, Project Management, Adaptability

Projects

Heart Disease Prediction – Full-Stack ML Application GITHUB — Mar 2024

- Built a **production-ready full-stack application** for predicting heart disease risk using, **React**, **FastAPI**, and **scikit-learn**.
- Applied **best practices** for deployment, CORS configuration, input sanitization, and environment-variable-based configuration.
- Structured the project for production with **frontend build integration**, modular backend, and clean directory organization.
- Utilized **MongoDB** for data management and real-time updates.

Tech: Node.js, Express.js, MongoDB, REST APIs, Data Processing

Restaurants Finder GITHUB — May 2024

- Built a restaurant finder app that fetches and displays real-time' data using external APIs.
- Implemented location-based search to show nearby restaurants.
- Strengthened understanding of API integration and end-to-end project development.

Tech: Python

Skill Based Candidate Shortlisting GITHUB — Nov 2023

- Developed a **skill-based candidate shortlisting system** to automate resume filtering and improve hiring efficiency
- Built a system to **rank candidates based on relevance score**, reducing manual screening effort
- Implemented **input parsing for resumes and job descriptions** to extract key skills and attributes

Tech: Html, Javascript, CSS

Movie Rating and Review Platform GITHUB — Dec 2023

- Developed using **AngularJS** (front-end) and **Node.js** (back-end).
- Allows users to **rate movies, post comments, and share reviews**.
- Designed a **dynamic and interactive UI** for seamless navigation.
- Built **APIs for smooth front-end and back-end communication**.
- Ensured **efficient data handling and storage** for user engagement.

Tech: AngularJS, Node.js, HTML, CSS, JavaScript.

Certificates

- Fundamental of data structure using C++ — July 2023
- Linux system administration — Sep 2023
- Responsive Web Design — Dec 2023

Achievements

- Took part in a **Coding Ninjas coding competition** to demonstrate programming proficiency.
- **Secured 3rd place** in an LPU-organized **Hackathon**, competing against multiple innovative teams.
- Participated in **LeetCode competitions** to strengthen and showcase problem-solving skills.

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.20** — Since Aug 2023
- **Karpuri Thakur College** — Motihari, Bihar
  Intermediate; **Percentage: 65.0%** — Apr 2022 - Mar 2023
- **Rajhans Public School** — Motihari, Bihar
  Matriculation; **Percentage: 51.60%** — Apr 2020 - Mar 2021
